

United Parcel Service Project Fact Sheet

Project Summary

As part of its programming under the Clean Cities Atlanta Petroleum Reduction Program, United Parcel Services will acquire 70 fleet vehicles for its North American Operations.

The specific elements of this project include:

- 50 Compressed Natural Gas Package Delivery Vans
- 20 Hydraulic Hybrid Trucks to service operations in the Metropolitan Atlanta Area

Why it is important

There are many benefits to the environment in which we live and work in for UPS to be supporting emerging technologies like these. UPS is committed to reducing fuel usage in every possible way from improving operating efficiencies to deploying the latest cutting edge technologies to reduce emissions.

About UPS

UPS (NYSE: UPS) is a global leader in logistics, offering a broad range of solutions including the transportation of packages and freight; the facilitation of international trade, and the deployment of advanced technology to more efficiently manage the world of business. Headquartered in Atlanta, UPS serves more than 220 countries and territories worldwide. The company can be found on the Web at <http://www.ups.com/>.
